

METALTEK

Transforming
inspired architectural vision
into breathtaking reality

www.grankraft.com

ABOUT

Metaltek is one of the leading specialist solution providers in bespoke architectural metal and glass works. For the past two decades, we design, manufacture and install unique value engineering solutions.

We specialize in stainless steel, structural steel, aluminium, glass and other decorative metals such as brass, bronze and copper.

Metaltek adopts a customer-centric approach and assures client involvement across all stages of the project. With our premium craftsmanship, value engineering, innovative technology and creative aesthetics, we transform architectural visions into breathtaking reality.

We partner with our clients to evolve out-of-the-box, innovative and practical solutions.

MISSION

To become the best one-stop solution provider for iconic projects involving complex geometrical metal & glazing works and furniture in the construction industry.

VISION

To transform inspired architectural vision into breathtaking reality.

VALUES

Excellence • Innovation • Trust and Sustainability

We commit to building long term, strong and trustworthy partnerships with our clients. Our design and build solutions are unique, safe and sustainable with an innovative edge. We embody agility, novelty and community engagement.

structural design solution provider

Internationally operating.
Leading in the Middle East

35,000 sq ft

state-of-the-art equipment in 2
production facilities

15⁺

projects per year

One-stop solution for
special engineering challenges

OUR SERVICES

CANOPIES, SKYLIGHT AND DOMES

Our array of light transmitting sophisticated fenestrations elevates the aesthetics of our projects.

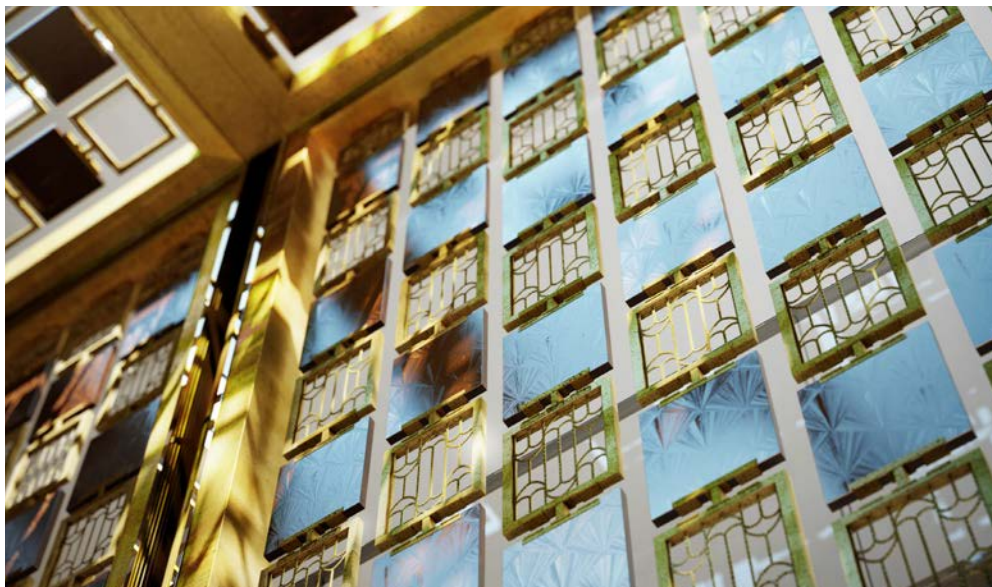

FACADES

Our premium range of façades in metal and glazing set a fashionable tone to our projects.

3D SCULPTURES

We build unique three-dimensional structures which add to the splendour of our clients' buildings.

MASHRABIYAS

Our intricate and unique mashrabiya form part of our specialism which contribute to be one of the finest decorative elements of the Arabian architecture.

OUR SERVICES

BALUSTRADES

Our finest collection of durable balustrades in stainless steel, aluminium and glass offer excellent fall protection and elevate the attractiveness of our projects.

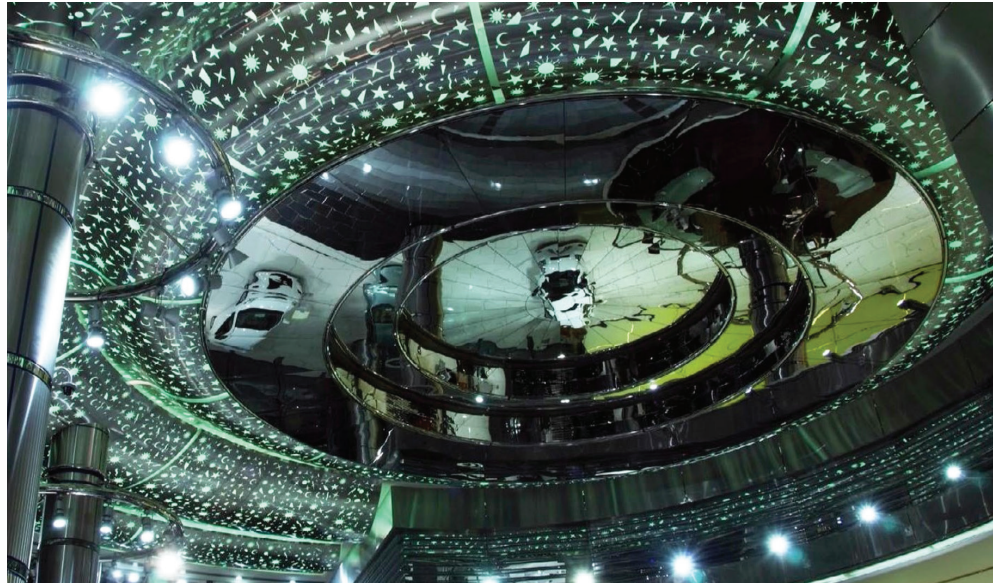

CLADDING

Our selection of wall and column cladding offer adequate thermal insulation and weather resistance along with enhancing the creative aesthetics.

CUSTOMIZED CEILINGS

Our selection of customized ceilings add the right blend of modern architecture to our clients' buildings.

STAIRCASES

Our premium range of spiral and helical staircases define our contributions to contemporary architecture. They are safe, space-efficient and trendy.
